

Basic Golang 6

What to Learn Today?

Basic Golang

1. Function
2. Pointer

Function

Function

```
func function(){  
}
```

Function with Return Types

```
func function() string{  
}
```

Did You Know?

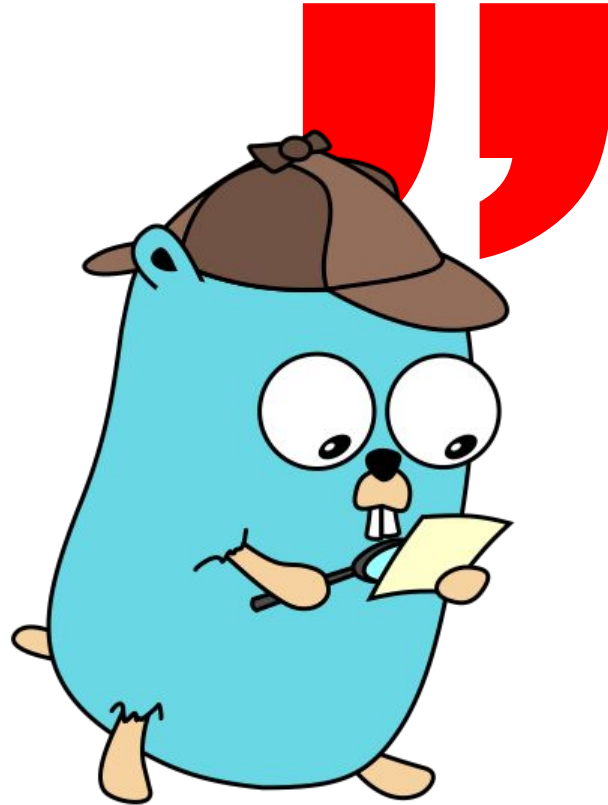

A function can be used
and declared in different
.go files!

Therefore, you should run
Go with "go run *.go"

Then, you're good to Go! 🐵

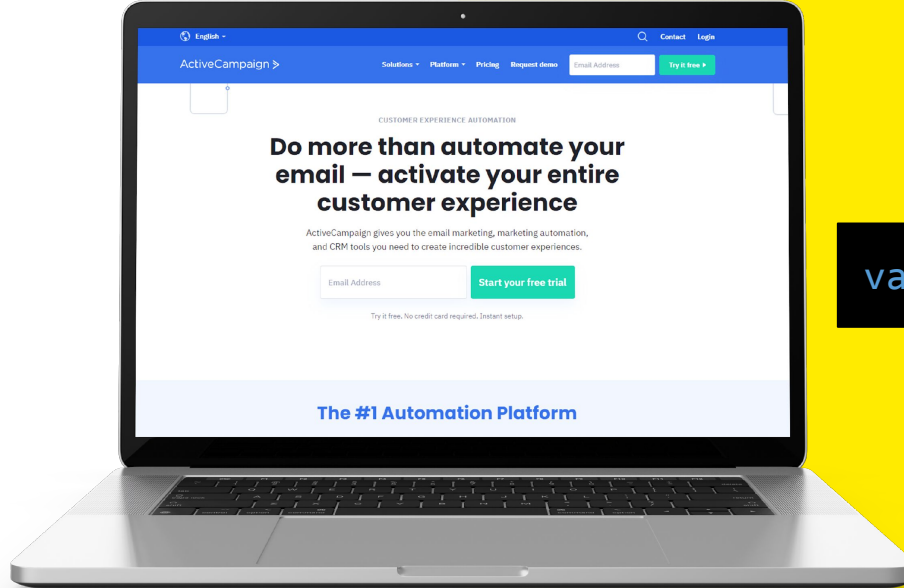

- Go developers

Pointer

```
var a *int
```

```
var z *int8 = &number
```
